### NOTE FOR SCHOOLS:

If your school used Google Classroom during periods of remote learning, we are asking teachers to ensure your students can access the classroom for their VWEX placements as soon as they receive their username and password from Speakers for Schools.

There have been some issues on the C2K network, when students' C2K usernames are also their Google usernames. The C2K network automatically logs students into the school / college Google classroom accounts and does not allow students to use another Google account / access our classrooms.

This has impacted on some students being late logging into their placement and in some instances not being able to attend their VWEX.

## STUDENT APPLICATION PROCESS:

Students must be registered users on our system to apply for the above Insight Days and work experience opportunities. They can sign up and register via this link: [Student Portal](#)

Your students can also apply for UK wide virtual work experience opportunities via our portal. Host companies this term include [Bentley Motors](#), [High Tide Foundation](#), [Morgan Sindall Construction](#), [Santander](#), [Tesco](#), [The Financial Times](#), [Thames Water](#) and the [National Portrait Gallery](#).

Check on our portal for a full list of UK wide VWEX opportunities your students can apply for.

## BECOMING A REGISTERED TEACHER / SCHOOL:

You can find more virtual work experience opportunities for your students to access by signing up as a registered teacher on our opportunities portal – [Teacher Registration](#)

### **Processing Student Applications on the Portal**

Registered Teachers can also sign up to our free portal training to get more expert guidance on how to access these opportunities.

You can register your attendance through clicking the link [School Leaders Training](#)

## **Nuffield Research Placements Applications - Now Open for Summer 2022**

Nuffield Research Placements (NRPs) are engaging, real-life research or development projects, where talented Year 12 (or equivalent) students are placed at the heart of a local STEM company for 4-6 weeks.

They are a fantastic opportunity for students to apply skills and knowledge learned at school while providing a meaningful contribution to the work of researchers and industry professionals.

Travel costs are reimbursed and students may be eligible to receive a £200 bursary. Placements take place in a variety of locations including \*offices, museums, research centres, laboratories or fieldwork settings.

*\*Location must comply with Government Covid guidance at the time.*
